Re: Vocalist and Entertainer - Avis Harrell

To Whom It May Concern:

I have had the pleasure of hearing and seeing Ms. Avis Harrell perform at The Paladinos Night Club for approximately 2 years with The Jimmy McConnell Orchestra as a backing band. Avis is always professional and brings a joyful and professional energy and performance each time she hits the stage.

Her voice and personality is one that fills the room and ignites the stage. All of my patrons know they are getting a professional show with a Las Vegas like flair whenever she is entertaining us. She includes the audience to participate by bringing them on stage to perform and they love being part of her act.

There is no doubt that Avis is the ultimate entertainer and her voice, stage persona and years of experience show whenever she performs at Paladinos - Los Angeles' Showcase Concert Venue.

Sincerely,

JimmyD
